C. F. No. 46]

GOVERNMENT OF MYSORE

No. 3346
Encls. 3

OFFICE OF The Chief Engineer for Roads and Buildings in Mysore, Bangalore.

Date 24-10-44

Public

SECRETARIAT. 1655. 25.10.44.

To The Secretary to Government,
Public Works Department, Bangalore.

Sir, Re:- Transference of the Sanitary Bureau to the control of the Public Works Department.

As desired by Government in G.O.No.P.W.1233-96 dated the 26th August 1944, I have the honour to forward herewith a -- Note on the proposals for suitable reorganisation of the staff of the Sanitary Bureau in consultation with the Chief Engineer for Irrigation. With regard to para 3 on the draft detailed instructions for preparation of projects, scrutiny, counter-signature to estimates, etc., to be prepared in consultation with the Director of Public Health, I have addressed the -- Director of Public Health and will submit for orders of Government proposals after his views are ascertained.

I have the honour to be
Sir,
Your most obedient servant,

Chief Engineer for Roads
and Buildings.

K.G.

CHIEF ENGINEER OF MYSORE 694 26/10/44

These proposals involve reorganisation of the Bureau of Sanitary Engineering including establishment of advisory staff. A comprehensive proposal statement taking account of all the existing establishment (executive and clerical and menial) and that proposed is necessary

Note.—Contn. sheet.

WP 0104—GPB—20,000—22-2-41

U.O.No. 162 Dated, Bangalore the 1st November 1944

The comprehensive proposition statement has been called for from the Sanitary Engineer, Bureau of Sanitary Engineering, in consultation with the Director of Public Health and will be submitted on receipt.

In the meanwhile, orders of Government on the proposals made in the Note may kindly be obtained and communicated pending the submission of the proposition statement. The total extra cost involved will be roughly Rs.950/- per mensem.

Secretary to Government,
Public Works Department,
With compliments.

Chief Engineer for Roads and Buildings.

According to standing rules, a proposition statement in the prescribed form is required in such cases and it has to be got verified in the audit office before it could be submitted to Govt thro the Secrett. In the absence of such a statement, financial implications of the proposals will not be clearly known and the admin authrie and financial Secrts will not be in a position to correctly note on the aspects of the case In para 2 of the Go of 26.8.1944, it has been directed that the Sanitary Bureau Division be transferred to the PWD and placed under the control of the Ch. Engr R & B. Whether this Go. has been given effect to has not been intimated.

The Chief Engineer R&B, may perhaps be requested to take charge of the Sanitary Bureau with the existing establishment as per orders of Govt

N o t e.

The Sanitary Engineer has at present jurisdiction all over the nine districts, which is too extensive for a single officer to concentrate and secure adequate speed and progress in the execution of works. For a better concentration on the works and better efficiency the following territorial jurisdiction, is decided.

The Sanitary Engineer will in future be in charge of all the water supply and drainage works in Tumkur, Hassan, Kadur, Shimoga and Chitaldurg Districts.

The Executive Engineer, Water Supply Division, will in future be in additional charge of Bangalore, Mysore, Mandya and Kolar Districts including the three major water supply installations of Bangalore, Mysor and K.G.F. and all other water supply and drainage works in the above Districts.

To give further relief in the execution of a number of small works it is suggested that the projects of all drainage works be got up by the two Divisions and the execution of works below Rs.1,000/- be given over to the respective Executive Engineers, of the Public Works Department Divisions. The Town Planning and Allied works that are in charge of the Bureau will be transferred to the Director of Town Planning A statement showing the extra staff required in the Chief Engineer's Office and the Executive Engineer's office, Water Supply Division, in view of the above re-organisation is also enclosed.

The Sanitary Bureau at present consists of the following five Sub Divisions with an Assistant Engineer in charge of each:-

No.1 Sanitary Sub Division.	Bangalore & Tumkur Districts.
No.2 -do-	Mysore & Mandya Districts, including Vani Vilas Water Works, Mysore
No.3 -do-	Hassan and Kadur Districts.
No.4 -do-	Chitaldurg & Shimoga Districts.
No.5 -do-	Kolar District including K.G.F Water Works, Bethamangala.

These five Sub Divisions will be modified as follows in the re-organisation.

No.1 Sanitary Sub Division.	One Assistant Engineer in charge of (a) All Moffusil Water Supply and drainage works in Bangalore District (b) Works at Hessarghatta indluding the special works that are under execution (c) A portion of duplication of the new pipe line work from C.J.F. to Thippagondanahalli to be taken up.
No.2 -do-	One Assistant Engineer in charge of Mysore & Mandya Districts as at present and V.V.Water Works, Mysore.
No.3 -do-	One Assistant Engineer in charge

	in charge of Tumkur & Hassan Districts with head-quarters at Tumkur.
No.4. Sanitary Sub Division.	One Assistant Engineer in charge of Kadur & Shimoga Districts with head-quarters at Shimoga.
No.5. -do-	One Assistant Engineer in charge of Kolar District, including K.G.F water Works, Bethamangala.
No.6 -do-	One Assistant Engineer in charge of Chitaldurg District and Chitaldurg water supply and Kathral project with head-quarters at Chitaldurg.

N.B. In the above re-organisation an extra Assistant Engineer will be required for one of the Sub Divisions as there are only five Assistant Engineers in charge of the five Sanitary Sub Divisions at present-

The Personal Assistant to the Sanitary Engineer will be the Sanitary Personal Assistant to the Chief Engineers for Irrigation and Roads and Buildings.

Each of the Executive Engineers in charge of the Sanitary and Water Supply Divisions as constituted above will have a graduate Surveyor as his personal Assistant. One graduate Surveyor is already working in the Sanitary Engineer's Office and an additional graduate Surveyor will be required as Personal Assistant to the Executive Engineer, Water Supply Division.

The Well-boring Section will be divided into two sections under the two Executive Engineers. There is now one Well-boring Inspector and later on another Well-boring Inspector will be appointed by promotion of one of the efficient operators.

The present distribution will be worked for a period of one year and further proposals submitted regarding the future organisation for orders of Government.

Separate proposals regarding the additional Clerical Establishment required for working the re-organisation scheme are separately submitted for obtaining orders of Government for the additional Establishment.

Activities of the Bureau of Sanitary Engineering, Bangalore.

I. WATER SUPPLY.-

(a) Maintenance of installations including the major water supplies of Mysore and K.G.F.

(b) Surveys and preparation of original water supply schemes and their execution (except in case of Bangalore Water Supply)

(c) Periodical bacteriological analysis of water samples of all water supplies both maintained and not maintained by the Bureau.

(d) Inspection and sanitary supervision of the operation of all water supplies not maintained by the Bureau.

(e) Assistance to moffusil water supplies (not maintained by the Bureau) during breakdowns and restoring service with minimum loss of time.

(f) Borewells: Putting borewells for Local Bodies, Village Panchayets, Military authorities, private persons and firms and giving them schemes for water supply from the borewells and executing the schemes also in almost all the instances.

(g) Attending to the repairs of all borewell installations belonging to Local Bodies and Village Panchayets and in some cases private parties also.

(h) Advice to private persons and firms and parties in matters of water supply.

(i) Water supply arrangements to Jatras, festivals etc. No 10.

II. D R A I N A G E:

(a) Preparation of schemes for drainage, sewerage, disposal of sewage and its treatment, for all places in the State, except Bangalore and Mysore, and also the execution of the schemes.

(b) Scrutiny of estimates sent by Local Bodies for small surface drainage schemes.

III. SANITARY FITTINGS.-

(a) Maintenance of sanitary fittings of Government buildings, about 80 in Mysore and 100 in Bangalore.

(b) Preparation of original estimates for sanitary fittings for all Government buildings in the State and their execution also. This includes inspection of sanitary fittings of Travellers' Bungalows, Railway Rest Houses, etc. and furnishing necessary estimates for repairs and renewals.

IV. Construction of rural and urban sanitary privies, borehole latrines, etc. and demonstration of rural sanitation. This includes also furnishing of type design plans of sanitary latrines and privies to Local Bodies and private persons and firms.

V. All engineering aspects of malaria and plague control involving the designs of drainage projects for the control of malaria and designs for rat-proof constructions for the control of plague. The execution of anti-malaria engineering works also rests with the Bureau.

VI. Town Planning: Preparation and approval of all plans for town planning, improvements of extensions; this includes also forwardal of miscellaneous designs and plans, such as shandy maidan, vegetable market, bus-stand, etc.

VII. Preparation of designs of slaughter houses and mutton stalls on sanitary lines and in some cases, their construction also.

VIII. Preparation of schemes for slum clearance for local bodies (such as, opening out of conservancy lanes opening out of lung spaces, etc.)

G.O. No.G.7367-81 Sany. 31-29-9 dated 18-12-1929 passing orders about the formation of the Bureau of Sanitary Engineering in the Health Dept.

2. G.O. No.G.14053-106 Sany. 31-29-29 dated 31st May 1930 passing orders re: establishment, budget and duties of the Bureau of Sanitary Engineering of the Health Dept.

3. G.O. No.P.W.1223-96 dated 26th August 1944 directing that the Sanitary Bureau be transferred from the Public Health Dept. to the Public Works Dept.

4. Letter No.3346 dated 24-10-1944 from the Chief Engineer for Roads & Buildings.

Order No. P.W. 5434-39 Dated Bangalore, 26-3- 1945.

In G.O. No.P.W.1223-96 dated 26th August 1944, Government have ordered that the Sanitary Bureau Division be transferred to the Public Works Dept. The Chief Engineer for Roads & Buildings has submitted proposals for suitably reorganizing the staff of the Division

2. The duties of the Division comprise

(1) (a) Maintenance of water supply installations, such as K.G.F. and Mysore, and of 31 smaller installations such as Arkalgud, Konanur, etc.

(b) Preparation of schemes for water supply;

(c) The sinking of bore wells for water supply;

(2) Drainage: Preparation and execution of schemes for drainage, sewerage, etc.,

(3) Installation and maintenance of sanitary fittings;

(4) Town Planning, slum clearance, etc.

(5) Anti-malaria Engineering Works;

(6) Construction of rural and urban sanitary privies, bore-hole latrines, mutton stalls, slaughter houses, etc.

3(i) ~~In regard to~~ The water supply installations at K.G.F. and Mysore, ~~the maintenance~~ will be transferred

to the P.W.Department and the Executive Engineer, Water Supply Division, Bangalore, will be in charge.

(ii) As regards the water supply schemes now in direct control of the Bureau of Sanitary Engineering, the Municipalities that are meeting the full cost of maintenance may be addressed regarding taking over of the maintenance of such schemes under their direct control, the general supervision, however, being vested in the P.W.Department.

(iii) New schemes for water supply to towns, will be prepared by the engineering staff of the Division, the Director of Public Health will be consulted as regards the suitability of the source of water supply and the arrangement for purification of water.

(iv) All works costing Rs 5000 and below will be carried out by the Executive Engineers of the Divisions in whose jurisdiction the scheme lies.

4(i) Drainage: The schemes for drainage of towns will be prepared by the Engineering staff of the Sanitary Division, they will be sent to the Director of Public Health for his opinion, particularly in regard to the treatment and the final disposal of the effluent.

(ii) All works throughout costing Rs 20,000 and below will be executed by the Executive Engineers of Divisions in whose jurisdiction such works lie, works requiring special experience in sanitary engineering being carried out by the Sanitary Division

5(i) Anit-malaria Engineering Works: The schemes will be prepared by the Sanitary Division in close consultation with the Health Department.

(ii) The Director of Public Health will during his inspections examine the works in progress and communicate his opinion to the Chief Engineer for suitable action in the

matter. ~~In regard to the execution~~, The Executive Engineer of each Division will carry out ~~such~~ works ~~whose cost will not exceed Rs. 5,~~000.

6. Sanitary fittings and water supply installations to buildings: ~~Considerable~~ delays are now occurring on account of want of co-ordination in regard to this particular item. All works under sanitary ~~fittings~~ and water supply installations connected with any particular building will be carried out by the agency in charge of that building, the estimates, however, being got prepared by the Sanitary Division.

7. Town Planning: In view of the constitution of a Town Planning Committee ~~with~~ a Director of Town Planning (Chief Engineer for Roads & Buildings), all works connected therewith shall be transferred to the Government Architect who will take instructions from the Director of Town Planning. The Director of Public Health being a member of the Committee will offer his opinion on the town planning schemes that come up for consideration before the Committee.

8. In regard to other miscellaneous works, such as construction of mutton stalls, slaughter houses, bore-hole latrines, sanitary privies, etc., the Executive Engineer, Sanitary Division, will invariably send the estimates to the Director of Public Health for his opinion before submitting them to the Chief Engineer for sanction.

9. Separate orders will issue in regard to the proposals for establishment that have been submitted by the Chief Engineer for Roads & Buildings. In the meantime, the Director of Public Health is requested to transfer all the works and the entire establishment, both executive and clerical,

3276
P55

connected with the Bureau of Sanitary Engineering to the Public Works Department.

10. The Chief Engineer for Irrigation will have the administrative control of water supply schemes, both maintenance and execution, and the Chief Engineer for Roads & Buildings will be in administrative control of all other items of activities of the Bureau of Sanitary Engineering referred to above.

G.O.No.G.7367-81 Sany.31-29-9 dated 18th December 1929 passing orders about the formation of the Bureau of Sanitary Engineering in the Health Department.

2. G.O.No.G.14053-106 Sany.31-29-29 dated 31st May 1930 passing orders re: establishment, budget and duties of the Bureau of Sanitary Engineering of the Health Department.

3. G.O.No.P.W.1223-96 dated 26th August 1944 directing that the Sanitary Bureau be transferred from the Public Health Department to the Public Works Department.

4. Letter No.3346 dated 24th October 1944 from the Chief Engineer for Roads and Buildings.

Order No.P.W. 5434-39 Dated, Bangalore, 26th March 1945.

In G.O.No.P.W.1223-96 dated 26th August 1944, Government have ordered that the Sanitary Bureau Division be transferred to the Public Works Department. The Chief Engineer for Roads and Buildings has submitted proposals for suitably reorganising the staff of the Division.

2. The duties of the Division comprise

(1)(a) Maintenance of water supply installations, such as, K.G.F. and Mysore and of 31 smaller installations, such as, Arkalgud, Konanur, etc.

(b) Preparation of schemes for water supply;

(c) The sinking of bore wells for water supply;

(2)~~(d)~~ Drainage: Preparation and execution of schemes for drainage, sewerage etc.

(3) Installation and maintenance of sanitary fittings;

(4) Town Planning, slum clearance, etc.

(5) Anti-malaria engineering works;

(6) Construction of rural and urban sanitary privies, bore-hole latrines, mutton stalls, slaughter houses, etc.

3. (i) The water supply installations at K.G.F. and Mysore will be transferred to the Public Works Department and the Executive Engineer, Water Supply Division, Bangalore, will be in charge.

(ii) As regards the water supply schemes now in direct control of the Bureau of Sanitary Engineering, the Municipalities that are meeting the full cost of maintenance may be addressed regarding taking over of the maintenance of such schemes under their direct control, the general supervision, however, being vested in the Public Works Department.

(iii) New schemes for water supply to towns will be prepared by the engineering staff of the Division, and the Director of Public Health will be consulted on the suitability of the source of water supply and the arrangement for purification of water.

(iv) All works costing Rs.5,000 and below will be carried out by the Executive Engineers of the Divisions in whose jurisdiction the scheme lies.

4. (i) Drainage: The schemes for drainage of towns and villages will be prepared by the Sanitary Division and will be sent to the Director of Public Health for his opinion, particularly in regard to the treatment and the final disposal of the effluent.

(ii) All works of drainage costing Rs.20,000 and below will be executed by the Executive Engineers of Divisions in whose jurisdiction such works lie, works requiring special experience in sanitary engineering being carried out by the Sanitary Division.

5. (i) Anti-malaria Engineering Works: The schemes will be prepared by the Sanitary Division in close consultation with the Health Department.

(ii) The Director of Public Health will during his inspections examine the works in progress and communicate his opinion to the Chief Engineer for suitable action in the matter. The Executive Engineer of each Division will carry out these works.

6. Sanitary fittings and water supply installations to buildings: All works under sanitary and water supply installations connected with any particular building will be carried out by the agency in charge of that building, the estimates, however, being got prepared by the Sanitary Division.

7. Town Planning: In view of the constitution of a Committee for Town Planning under a Director of Town Planning (Chief Engineer for Roads and Buildings), all works connected therewith shall be transferred to the Government Architect who will take instructions from the Director of Town Planning. The Director of Public Health being a member of the Committee will offer his opinion on the town planning schemes that come up for consideration before the Committee.

8. In regard to other miscellaneous works, such as construction of mutton stalls, slaughter houses, bore-hole latrines, sanitary privies, etc., the Executive Engineer, Sanitary Division, will invariably send the estimates to the Director of Public Health for his opinion before submitting them to the Chief Engineer for sanction.

9. Separate orders will issue in regard to the proposals for establishment that have been submitted by the Chief Engineer for Roads and Buildings. In the meantime, the Director of Public Health is requested to transfer all the works and the entire establishment, both executive and clerical, connected with the Bureau of Sanitary Engineering to the Public Works Department.

10. The Chief Engineer for Irrigation will have the administrative control of water supply schemes, both maintenance and execution, and the

and the Chief Engineer for Roads and Buildings will be in administrative control of all other items of activities of the Bureau of Sanitary Engineering referred to above.
